

MEETING WITH OUR LANDSCAPE ARCHITECT

Prior to your mood board planning session with our Landscape Architect, please come prepared with some answers to the following questions. You could also bring some clippings or links to concepts that you like or have in mind, so that we can discuss these with you.

Firstly consider:

What are you wanting to achieve from your outdoor living areas?

If you are having a group of people over how would you like to entertain outside?

If it is an existing home, how do you currently use your entertaining areas/ outdoor living areas, what is missing to make it perfect?

Are there any specific features e.g. fireplace, spa pool, swimming pool, built in BBQ etc you would like us to include or consider in your new outdoor living areas?

Are you concerned about privacy in areas of your home?

DESIGN THEMES. Please consider these design themes and if you have any ideas or preferences, please bring them to our meeting.

- Formal – symmetry, geometric shapes, structure, clipped hedges, outdoor rooms
- Modern – crisp lines, minimalistic, architectural styles, asymmetric
- Country/Lifestyle – large open spaces, specimen trees, mixed borders, flowing lines
- Subtropical – bold, lush foliage, layered, tranquil spaces, colourful
- Coastal – natives, whimsical, mass planting

Please remember this session is to allow you to discuss all your thoughts, ideas and dreams for your perfect outdoor space. Our Landscape Architect will be able to steer your ideas and together come up with something that suits your preferences and your budget.
